Latest NEWS/INFO for the NEWSLETTER
MMMonVHF The VHF-DX-Portal
****

The number of days with fog and mist in the past thirty years has
fallen sharply in Europe - To know where/how/when with the weather
I visit he webpages of the Dutch KNMI on a regular basis. Some days
ago there was a small news item on their webpages that during the
last 20 years the number of days with heavy fog decreased by 50%.
This is, concluded by a study, contributing to the global warming.
The news item is in Dutch so Frank, did translate it for you
Use the MMMonVHF Forum:
http://www.mmmonvhf.de/minibb/index.php?action=vthread&forum=12&topic=69#msg131
Your comments are welcome - SOURCE: Frank, PA4EME Team of MMMonVHF

February is one of the most quiet periods for meteors.
Sporadic meteors activity reaches its annual minimum this
month; anyway, MS-DXing is still possible in 144 MHz...
Have a look to upcoming minor meteor showers in February, on
our MS-Propagationpage. SOURCE: Massimo, IV3NDC, Team of MMMonVHF

A fantastic ham radio event has been revived that will provide a
weekend of fun and excitement to every ham that participates. The New
Mexico QSO Party, an operating event designed for new and experienced
hams alike, will take place on the first weekend of February (Feb 7-8,
2009).The purpose of this HF and 6-meter event (both of which every ham
has privileges to operate on) is to get on the airwaves and have a
great time with hams from across New Mexico and the nation...
Complete details, rules, and forms are available at the New Mexico QSO
Party website: http://www.swcp.com/~n5zgt/nmqsoparty Details are also
set appear in the February issue of QST magazine as well as the
February Contest Corral posted on the ARRL website.

Very SAD NEWS - It has come to us notice that Gary Gompf passed away
on Thursday January 22 as a result of a heart attack as he was

driving from Batlesville, OK to Texas. He was the original owner of
W7FG VINTAGE MANUALS for many years. Gary will be missed by his many
friends. The Team of MMMonVHF will pass our deep sympathy and
condolences to his family. Rest in peace, Gary!

EME Activity from Nigeria in next months...
Bodo will be working in Abuja/Nigeria for several month. This will
give me the opportunity to bring EME to the Nigerian Amateur Radio
Club. Please remember that I will be there for work reasons so I
cannot be on air as much as on my other DXpeditions. However, I
will take all of the equipment there and try to be on the bands
as often as possible. The call sign for EME activities might be
5N0EME but its not confirmed yet. All other HF activities will
be with the call 5N/KT3Q. The EME activities will be focused on
2m and 23cm. Equipment is planned to be as listed below. If you
have anything that I could use during that time, I would be happy
to take it there and maybe leave it there as donation for the
radio club. SUBCRIBE/Bookmark: www.mmmonvhf.de/latest.php?id=2244

Camb-Hams on Harris DX Pedition 2009 (IO67)
After a very successful Dx pedition in 2008 to the Island of Mull
the Camb-Hams have decided on another DX Pedition for 2009. We
have agreed on the Island of Harris for this years location which
is off the north west coast of Scotland. The format of the trip
will be the similar to last year, where we shall have stations
on HF voice and data, most bands inc 5Mhz, alongside 6m, 4m, 2m
and possibly 70cm (SSB, JT6m and MS). There will be lots of
portable operation around the islands (possible interest to
WAB chasers) and 3 very energetic climbers activating SOTA
summits all week. Read more about these upcoming trip in detail:
http://www.mmmonvhf.de/latest.php?id=2246

The 4M5DX Groups expedition to Aves Island (NA-020) is scheduled
to take place in March, hopefully for a full week. A large team of
operators will be active as YW0A on 160-6 metres SSB, CW and RTTY.
QSL via IT9DAA (diret or bureau), or LoTW.

Yuri, UT1FG, is back /maritime mobile and qrv on his trip to
SU-Land. He is very interested in 50 MHz and 144 MHz and as well
SAT QSOs. He was seen in the northsea area around DL and OZ past
days. SOURCE: tnx to Andy, Neon, N8OFS and his GOT6-News
LATEST NEWS from Neil, G0JHC, via UKSMG Announce, dated 2009-01-27:
Our Good 6m friend UT1FG/MM sends his regards, and is back on air
and /MM. Today he worked OZ4VV & OZ3K on six, he is currently in
JO36 and QRV 50110. The trip takes him to SU-land where he expects
to arrive February 7th . Call CQ on 50110, he may reply. Yuri is
working 160m 1845 most days with a long wire, look out for him
there if six is closed. He was 59 here tonight...

The VHF-DX-Portal MMMonVHF - Newsletter Credits & Info
****

Our Newsletter is compiled from the input of the USER of the VHF-DX-Portal
MMMonVHF as well by a lot of free usable HF-V-U-SHF-Info-Sources and chats
like ON4KST-, N0UK-, RU-VHF-DX-Net, EA-V-U-SHF-Chat and others...

       *** Many thanks to all USER who send us info and news ***

Wherever we found the info we always indicate the source of the info.
If you get knowledge of an expedition, which is NOT listed at our
VHF-DX-Portal MMMonVHF or if you have additional info for an expedition,
PLEASE be so kind and send us this info at
http://www.mmmonvhf.de/newsuser.php or http://www.mmmonvhf.de/kontact.php

The MMMonVHF-Team is always trying to spread any expedition info as much
up-to-date and reliable as possible and as long as the info does not
violate with our MMMonVHF-Policy.

Have a lot of fun and enjoy MMMonVHF!
